

# FOOT CARE
# WEBSITE DEVELOPMENT BRIEF

Page-by-page website structure, draft copy, functionality, policies and FAQs

BRAND PROMISE

## Feel Relaxed with Reflexology

Prepared for the website development team | The Socio Ardent

# 01. Project overview

Build a premium, responsive website for FOOT CARE, a professional foot reflexology and massage-wellness brand. The website must communicate trust, comfort, professionalism and a distinctive technology-assisted wellness offering. Its primary conversion goal is to help visitors discover treatments, choose a branch and request an appointment.

## Primary objectives

• Introduce FOOT CARE and its wellness philosophy.

• Explain foot reflexology through a dedicated educational page, including a traditional reflexology map and balanced research discussion.

• Present treatment combinations, durations, prices and prepaid packages clearly.

• Introduce an intelligent wellness assessment and Molecular Hydrogen Therapy as separate wellness experiences.

• Publish guest guidelines, safety information and professional service boundaries.

• Provide a Schedule Your Session booking-enquiry journey.

• Support multiple branches with individual location pages and contact details.

## Brand distinction

**FOOT CARE is the customer-facing brand. Do not promote or sell any assessment device. Do not name the supplier/manufacturer on the customer-facing technology page. Describe the service experience only.**

Marketing partner: The Socio Ardent (TSA).

# 02. Visual identity & photography

Use a dark premium theme throughout, following the supplied strategy references and approved logo.

| Element | Direction |
|---|---|
| Palette | Deep black, forest green, jade, sage and warm ivory; muted gold only as a restrained accent. |
| Typography | Elegant editorial serif headings paired with a clean modern sans-serif body font. |
| Photography | Premium, warm, realistic, human photography; ambient lighting, rich textures, uncluttered compositions and generous whitespace. |
| Guests/models | Indian-looking guests/models. |
| Therapists | North-East Indian-looking massage therapists, portrayed respectfully and professionally. |
| Massage product | Almond massage cream only. Natural moisturised skin finish; no oil, greasy shine, wet reflections, oil bottles or oil drips. |
| Logo | Use supplied FOOT CARE logo and tagline unchanged. Do not redraw, distort or recolour without approval. |

## Photo themes

**THE TOUCH:** respectful close-up treatment techniques. **THE SPACE:** recliners, textures, lighting and calm. **THE MOMENT:** real guests, comfort and permission-led imagery. **THE RITUAL:** clean towels and subtle treatment details. The supplied interior reference is conceptual and must not be represented as an actual branch.

# 03. Sitemap & navigation

| Page | Purpose |
|---|---|
| Home | Brand introduction, hero, treatments, technology experiences, locations and booking CTA. |
| About FOOT CARE | Brand story, philosophy and professional service standards. |
| Treatments | Treatment menu, combinations, duration and pricing. |
| Foot Reflexology | History, traditional theory, foot map, research, session experience and FAQs. |
| Intelligent Wellness Experience | Short premium page about technology-assisted wellness assessment; no device/supplier naming. |
| Molecular Hydrogen Therapy | Dedicated concise page; final delivery and safety details to be confirmed. |
| Locations | Branch directory and individual branch pages. |
| Franchise | Franchise overview and enquiry form using approved facts only. |
| FAQs | Common questions about treatments, bookings, packages and services. |
| Guest Guidelines & Policies | Hygiene, clothing, therapist matching, consent, safety and conduct. |
| Schedule Your Session | Booking request form with branch, service, preferred date/time and contact details. |
| Contact | General contact details, enquiry form and social links. |

**Header CTA: Schedule Your Session. Keep a visible booking action on mobile. Footer: quick links, treatments, locations, contact, policies, social links and copyright.**

# 04. Home page — draft copy & sections

**Hero headline:** A Moment to Unwind. A World of Wellness.
**Supporting copy:** Discover thoughtful massage therapy, the art of reflexology and modern wellness experiences at FOOT CARE.
**Primary CTA:** Schedule Your Session
**Secondary CTA:** Explore Our Treatments

## Recommended homepage sections

• Brand introduction: “At FOOT CARE, every detail is designed around your comfort. From skilled hands to thoughtfully curated treatments, discover a space to pause, relax and reconnect with yourself.”

• Signature experience: Foot Reflexology, with a link to the dedicated page.

• Treatments preview with durations and prices; link to full menu.

• Technology-assisted wellness preview: “A Smarter Way to Experience Wellness”.

• Molecular Hydrogen Therapy preview and link to its page.

• Why FOOT CARE: experienced therapists, almond cream, curated experience and professional standards.

• Locations preview for Tirupati, Tadepalli and Guntur — confirm whether each is open or upcoming.

• Genuine testimonials only, with permission.

• Final CTA: “Make Time for Yourself. Schedule Your Session.”

## Avoid unsupported claims

**Do not claim to cure, detoxify, repair organs, diagnose disease, be clinically proven or be “first in India” unless the exact claim is independently substantiated and legally approved.**

# 05. About FOOT CARE

**Suggested heading: Wellness, Thoughtfully Experienced.**
FOOT CARE brings together the art of massage therapy, traditional reflexology and carefully selected wellness experiences in a calm, professional setting. We believe that taking time to relax should feel considered, comfortable and personal. Every visit is shaped by attentive service, experienced therapists and a commitment to guest comfort.

## Content blocks

- Our philosophy and approach to relaxation.
- Our commitment to professional, respectful service.
- Our treatment approach and use of almond massage cream.
- Our therapists and training standards; publish verified qualifications and experience only.
- Our locations and franchise journey; publish confirmed facts only.

# 06. Treatments, combinations & pricing

The client instructed that treatment combinations, prices and durations remain the same as the existing Foot Relief reference website. Treat these as initial reference data and obtain client sign-off before launch. All values must be editable in the CMS.

| Treatment | Duration | Price |
|---|---|---|
| Foot Reflexology | 45 minutes | ■1,000 |
| Foot Reflexology | 60 minutes | ■1,300 |
| Foot Reflexology (45 min) + Back & Shoulder (15 min) | 60 minutes | ■1,300 |
| Foot Reflexology (45 min) + Back, Arm & Shoulder (30 min) | 75 minutes | ■1,600 |
| Foot Reflexology (45 min) + Back, Arm, Shoulder, Hand, Head & Neck (45 min) | 90 minutes | ■1,900 |

## Other service names to verify

Foot Reflexology; Hand Massage / Hand Reflexology; Head Massage; Neck & Back Massage; Arm & Shoulder Massage; Body Massage; Chinese Acupressure Therapy. Do not publish these as bookable items until exact names, availability and pricing are confirmed.

## Prepaid packages — reference data

| Package | Prepaid amount | Additional value |
|---|---|---|
| Silver | ■10,000 | 20% extra |
| Gold | ■20,000 | 30% extra |
| Platinum | ■30,000 | 40% extra |
| Diamond | ■40,000 | 50% extra |

**Confirm package terms before publishing: family/friend use, cross-branch acceptance, balance tracking, refunds, expiry/no-expiry, transferability, lost-card handling and taxes.**

# 07. Dedicated page — Foot Reflexology

**Page heading:** The Art of Foot Reflexology
**Hero:** Every Step Has a Story. Discover the Art of Reflexology.
**Intro:** Foot reflexology is a complementary wellness practice in which a practitioner applies pressure to specific areas of the feet. Rooted in traditional practices, it offers a focused and relaxing treatment experience.

## Page sections

• What is foot reflexology? Explain origins and traditional practice in accessible language.

• Traditional reflexology map: include a clearly labelled sole-of-foot illustration. State that organ correspondences are traditional associations, not proven anatomical connections.

• How a session works: explain pressure techniques, guest comfort and session flow.

• What research says: balanced summary of published studies, distinguishing reported relaxation/anxiety/sleep outcomes from proof of organ-specific effects. Include study names, dates and credible links after research review.

• What guests may appreciate: relaxation, time to unwind and a soothing foot-focused experience. Avoid guaranteed medical outcomes.

• FOOT CARE session: describe actual steps after client confirms process.

• FAQs: difference from foot massage; discomfort; duration; frequency; suitability; whether it replaces medical care.

## Evidence wording

**Do not state that reflexology diagnoses, treats or cures disease, or that pressure on a foot point has been scientifically proven to treat the corresponding organ. Clearly distinguish traditional theory from established medical evidence.**

# 08. Dedicated page — Intelligent Wellness Experience

**Customer-facing page must not mention RaDoTech, supplier/manufacturer, model, device brand, hardware or connectivity. FOOT CARE is presenting a service, not selling equipment.**

**Heading:** A Smarter Way to Experience Wellness
**Subheading:** Where advanced technology meets personal wellbeing.

Discover a new dimension of wellness at FOOT CARE. Our technology-assisted wellness assessment offers a unique insight into selected body wellness measurements through an advanced digital analysis experience. Designed to be simple, quick and easy to understand, it gives you a personalised overview of your assessment results, helping you become more aware of your wellness journey.

## Feature points

• Intelligent Analysis — technology to capture and present selected wellness measurements.

• Personalised Insights — an easy-to-understand overview of assessment results.

• Quick & Convenient — a simple assessment experience designed around guest comfort.

• A New Perspective — an additional dimension to the overall wellness experience.

**Closing: Wellness meets intelligent measurement. Experience the difference at FOOT CARE.**

Internal developer/compliance note: source technology is described by its supplier as non-invasive electrodermal wellness measurement. Do not translate its output into medical diagnoses, organ-function claims or disease predictions. Do not claim AI functionality unless the specific AI feature is substantiated. Confirm exact model, instructions, safety and local regulatory requirements.

# 09. Dedicated page — Molecular Hydrogen Therapy

**Heading:** Breathe in a New Dimension of Wellness
**Subheading:** Discover the experience of Molecular Hydrogen Therapy.

At FOOT CARE, we continue to explore modern wellness experiences that bring together innovation, comfort and personal wellbeing. Molecular Hydrogen Therapy introduces a breathing-based wellness experience involving molecular hydrogen, delivered as part of a carefully designed session. A simple, relaxing experience that invites you to pause, unwind and explore a new dimension of wellness.

**Before publishing, client must confirm the exact delivery method, concentration, session duration, equipment specifications, safety documents, contraindications, staff training and applicable Indian regulatory requirements. Do not claim disease treatment, detoxification, antioxidant benefits or guaranteed outcomes. Human clinical evidence is still developing.**

# 10. Guest Guidelines, Safety & Service Policies

Draft customer-facing policy copy — obtain operational and legal review before publication.

## Our Promise of Comfort & Professional Care

At FOOT CARE, your comfort, dignity, privacy and wellbeing are at the heart of every experience. Our treatments are designed to offer a professional, relaxing and carefully curated massage therapy experience.

### 1. Almond cream

Massage treatments use almond-based massage cream rather than massage oils. Guests with nut allergies or known sensitivities must inform the team before treatment. Do not proceed with almond-based product where a relevant allergy is known; confirm an alternative or decline treatment.

### 2. Clothing & changing

Guests may remain in clothing suitable for the selected treatment. If concerned that personal clothing may come into contact with massage cream, guests may be provided separate clean treatment clothing. Staff must explain preparation and respect privacy and appropriate coverage. Confirm whether garments are single-use or freshly laundered before specifying this publicly.

### 3. Experienced therapists

Sessions are delivered by trained massage therapists with practical experience. Publish specific years, qualifications or certifications only after verification.

### 4. Curated experience

Every session is thoughtfully designed around comfort, relaxation and attention to detail, from the treatment environment to the techniques used.

### 5. Reflexology

Foot reflexology is a signature part of the FOOT CARE experience, rooted in traditional reflexology practices. It is a complementary wellness practice and is not intended to diagnose, treat or cure medical conditions.

### 6. Gender-matched therapist policy

**Female guests will be attended to by female massage therapists. Male guests will be attended to by male massage therapists. Booking flow and branch operations must verify matching therapist availability before confirming appointments.**

### 7. Technology-assisted wellness

Optional technology-assisted wellness assessments are for general wellness information only, not medical examination, diagnosis or substitute for clinical care. Participation is voluntary. Explain the process and obtain consent. Handle personal results under applicable privacy requirements.

### 8. Molecular Hydrogen Therapy

This may be offered as a separate wellness service. Service-specific eligibility, safety instructions, consent and contraindications must be displayed once technical details are confirmed.

### 9. Health disclosure & consent

Guests should inform staff before treatment about relevant allergies, sensitivities, injuries, pregnancy, medical conditions, implanted electronic devices or other concerns that may affect suitability. Staff must follow documented screening and escalation procedures. Services do not replace medical advice.

### 10. Professional conduct & service boundaries

FOOT CARE is a professional massage therapy and wellness establishment. Services are strictly limited to treatments listed on the official service menu. Inappropriate requests or conduct outside professional massage therapy will not be accepted. Staff may stop a session if boundaries are not respected.

### 11. Hygiene & privacy

Use clean towels and treatment clothing for every guest; clean and disinfect treatment surfaces and reusable equipment between guests; maintain appropriate draping and privacy; and restrict access to personal information. Publish only procedures branches can consistently follow.

# 11. Common FAQs

Implement as expandable accordion items. These draft answers must be checked against branch operations.

**What is foot reflexology?**
A complementary wellness practice in which a practitioner applies pressure to specific areas of the feet. It is traditionally associated with different body areas and is often chosen as a relaxing foot-focused experience.

**How is reflexology different from a regular foot massage?**
A regular foot massage generally focuses on relaxing the muscles and tissues of the feet. Reflexology uses specific pressure techniques based on a traditional map of reflex areas.

**Does reflexology hurt?**
The experience should be comfortable. Pressure may feel firm in some areas, but it should not be painful. Tell your therapist if you feel discomfort so pressure can be adjusted.

**How long does a session take?**
FOOT CARE offers different treatment durations. Please view the treatment menu or ask your chosen branch for current availability.

**What product is used during massage?**
FOOT CARE uses almond-based massage cream. Inform the team before booking if you have a nut allergy or skin sensitivity.

**Can I change into treatment clothing?**
Separate clean treatment clothing may be provided if you prefer not to wear your own clothing. Confirm availability with the branch.

**Will I be attended to by a same-gender therapist?**
Female guests are attended to by female massage therapists, and male guests by male massage therapists. Appointments depend on matching therapist availability.

**Can reflexology cure a medical condition?**
No. Reflexology is a complementary wellness practice, not a medical treatment. It should not replace diagnosis or care from a qualified healthcare professional.

**What is the technology-assisted wellness assessment?**
An optional wellness assessment using technology to capture and display selected measurements in a digital overview. It is not a medical diagnosis.

**What is Molecular Hydrogen Therapy?**
A separate breathing-based wellness experience involving molecular hydrogen. Contact the branch for confirmed session details, suitability and safety information.

**How do I book a session?**
Use Schedule Your Session to select a branch, treatment and preferred appointment time, then submit your contact details. The branch will contact you to confirm availability.

**Can I walk in without an appointment?**
Walk-ins may be accepted subject to therapist and seating availability. Booking ahead is recommended.

**Are all services available at every branch?**
Availability may vary by branch. Check the individual branch page or contact the location before visiting.

**Can I use a prepaid package at another branch?**
Confirm package acceptance and terms with the branch before booking. Publish cross-branch validity only after client confirmation.

**What if I need to cancel or reschedule?**
Contact the branch as early as possible. Insert the final cancellation and rescheduling window after the client confirms its policy.

**Is parking available?**
Parking varies by branch. Check the individual location page for current information.

# 12. Schedule Your Session — booking page

**Intro:** Your time to unwind starts here. Choose your preferred FOOT CARE location, select a treatment and send us your preferred appointment details. Our team will get in touch to confirm availability.

## Booking form fields

| Field | Requirement |
|---|---|
| Full name | Required text field. |
| Mobile number | Required; validate number and country code. |
| Email | Optional or required per client decision; validate format. |
| Preferred branch | Required dropdown populated from active branches. |
| Treatment | Required dropdown showing service, duration and price. |
| Preferred date | Required date picker; block past dates. |
| Preferred time | Required preferred time/slot. Only show genuinely available slots if live scheduling is integrated. |
| Therapist matching | Explain gender-matched therapist policy and verify availability before confirming. |
| Additional notes | Optional. Warn guests not to enter unnecessary sensitive medical details. |
| Consent | Required acknowledgement of privacy notice and request to be contacted; separate optional marketing consent. |

**Submit: Request My Session**
**Confirmation: Thank you. Your appointment request has been received. Our team will contact you to confirm the booking. Your session is not confirmed until you receive confirmation from the selected branch.**

## Developer functionality

- Route request to selected branch and central admin.
- Send guest acknowledgement by email/SMS/WhatsApp if approved integration is configured.
- Notify branch with requested treatment, duration, preferred date/time and contact details.
- Admin statuses: New / Contacted / Confirmed / Rescheduled / Cancelled.
- Never show a slot as confirmed unless real branch availability is integrated.
- Store consent timestamp and privacy-notice version; secure personal data and protect forms from spam.

# 13. Locations & individual branch pages

Previously discussed initial locations: Tirupati, Tadepalli and Guntur. Client must confirm active/upcoming status, exact addresses, phone numbers, opening hours and opening dates.

## Each branch page must include

• Branch name and status (Open / Coming Soon), controlled by admin.

• Full address and embedded map / directions link.

• Branch phone and WhatsApp click-to-chat.

• Opening hours and holiday exceptions.

• Branch-specific services and availability.

• Branch-specific booking CTA with branch preselected.

• Real branch photographs only; concept imagery must not be presented as an actual branch.

• Branch-specific social media link, if available.

## CMS requirement

Build branch pages from a reusable template. Admin must be able to add, edit, publish, unpublish or mark a branch as coming soon without developer intervention.

# 14. Franchise, contact & footer

**Franchise heading:** Bring Thoughtful Wellness to Your City. Explain the franchise opportunity using approved business information only. Enquiry fields: name, phone, email, city/state, optional investment-readiness range, preferred contact time and message. Do not publish investment amounts, returns, payback periods or guaranteed earnings without substantiation and legal review.

**Contact page:** central enquiries, phone, email, contact form, social links and links to branches.

**Footer:** quick links, treatments, reflexology, wellness experiences, locations, schedule, policies, FAQs, contact, social icons, copyright, privacy policy and terms.

# 15. Developer technical requirements

• Responsive, mobile-first design tested on common iOS/Android devices, tablets and desktop.

• Fast-loading pages, optimised images, lazy loading, accessible contrast and readable type.

• SEO: page titles, meta descriptions, heading hierarchy, clean URLs, sitemap, robots.txt, canonical tags and social metadata.

• CMS for all copy, FAQs, prices, durations, package terms, branch information, testimonials and policies.

• Reusable templates for branches and service pages.

• Booking requests routed to correct branch; optional CRM, WhatsApp, SMS or email integrations subject to approval.

• SSL, secure forms, spam protection, backups and role-based admin access.

• Privacy-conscious data handling, retention controls and consent records.

• Accessibility: alt text, keyboard navigation, labelled fields, visible focus states and sufficient contrast.

• Do not collect health assessment readings through the website unless separate privacy/security review approves it.

• Separate Privacy Policy, Terms & Conditions, Cancellation/Rescheduling Policy and Package/Refund Terms pages after client provides approved legal wording.

## Suggested analytics events

schedule_session_click; booking_form_start; booking_request_submit; branch_phone_click; whatsapp_click; directions_click; treatment_detail_view; franchise_enquiry_submit.

# 16. Client confirmations before launch

• Confirm treatment names, combinations, durations and prices against current official menu.

• Confirm prepaid package benefits and terms, including validity, transferability, cross-branch use and refunds.

• Confirm service availability at each branch.

• Confirm branch addresses, phone numbers, hours, opening dates and map pins.

• Verify therapist experience, training and qualifications.

• Confirm treatment clothing arrangement (single-use or laundered), hygiene and privacy procedures.

• Confirm almond cream product details and allergy-handling process.

• Confirm wellness assessment functionality and substantiate any AI claim.

• Confirm Molecular Hydrogen Therapy delivery method, operating parameters, safety documents, training and regulatory position.

• Confirm screening, contraindications, consent and escalation protocols for treatments and technology services.

• Confirm cancellation, rescheduling, no-show, refund and package policies.

• Approve testimonials, photos, model/guest releases and image licences.

• Approve all wellness/medical claims and disclaimers.

• Provide approved Privacy Policy, Terms & Conditions and legal copy.

# END OF DEVELOPER BRIEF

**This document captures requirements and draft customer-facing copy gathered so far. Items marked for confirmation must be verified by FOOT CARE before publication. The developer must not invent missing prices, policies, technical capabilities, medical claims, branch details or certifications.**
